NEWS RELEASE

Board of Trade Supportive of Recent Budget Announcement in Corner Brook

Corner Brook (December 21, 2010) – The Greater Corner Brook Board of Trade was pleased with the recent announcement of the City of Corner Brook’s 2011 budget. Budget 2011 focused on investments in local infrastructure, no increases to the mill rates, and a renewed commitment to the economic prosperity of the city. Included among these are some of the key features identified by the Board of Trade and further addressed with the provincial government during the recent 2011 pre-budget consultations.

“We at the Board of Trade see great value in the increased spending in infrastructure on all levels”, said Keith Goulding, President of the Greater Corner Brook Board of Trade. “Spending on sustainability projects, recreational and park facilities, and new maintenance equipment for the city all help to increase the quality of life for the residents of the City of Corner Brook and the surrounding areas. As well, it is also key in the recruitment and retention of skilled professionals to the region.”

The commitment towards economic development and urban growth are areas of keen concern to many in the local business community. The Board of Trade looks forward to working with the City of Corner Brook through 2011 and beyond to further improve and develop our local business community.
